

# Unlimited opportunities with just one click.

## **We simplify your business**

By taking advantage of our e-Invoicing and e-Billing Solutions, you can take a step closer to the communication of the future: a fully digital information exchange with your clients – anywhere in the world. We ensure compliant processing, delivery and archiving of your electronic invoices and bills. Your clients can choose their preferred format for receiving invoices and bills, making it easy for them to do business with you.

## **Our fully digital solutions for your mail**

With our e-Invoicing Solutions, we provide services for the complete value creation chain in electronic invoices management. From solution consulting to data management and file creation through to digital delivery and final reporting, we provide the reliable expertise you need for your outgoing business documents. for a wide range of transactional mail and direct mail items

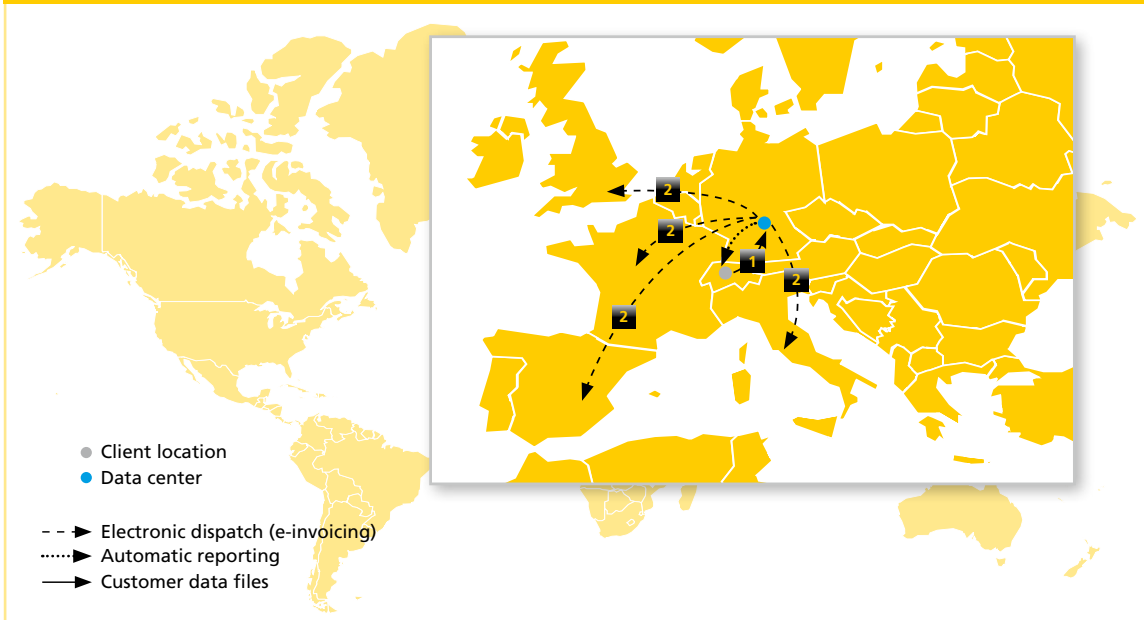

### **Structured business documents**

- Invoices
- Bills
- Dunning letters
- Credit notes
- Reminders

## Taking care of the entire process, we are at your side every step of the way.

1 The process starts with the transfer of structured or unstructured customer data via secure electronic channels. Our data center will take care of format and data management as well as conduct the required compliance checks. 2 After the creation and archiving of an invoice file, we distribute invoices in compliance with local tax regulations and in the required format and distribution channel.

### An example: Fast e-Invoicing in Europe

### What E-POST can offer you:

- A cost-efficient and legally compliant solution that is tailored to your business needs
- Faster process and delivery times
- Output format flexibility
- Increased process efficiency
